GENERAL NEWS.

[BY TELEGRAPH TO THE OREGONIAN.]

Pennsylvania Democratic Platform

[illegible], May 23.—The following is the [illegible] adopted by the Democratic convention:

[illegible] democracy of Pennsylvania unanimously [illegible] the Republican party its measures [illegible] are responsible for the financial distress and want that now exists Its system has been one of favors to the moneyed [illegible] of unequal taxation, of exemption of [illegible] high rates of interest and of remorseless [illegible], which has destroyed every enterprise [illegible] employment to labor Its present hold [illegible] power was secured by fraud perjury [illegible] its laws are unjust and its practices [illegible]. They distress people and destroy [illegible].

[illegible] remedy for these evils is in an entire [illegible] policy We resolve that further contraction of the volume of U S legal tender notes [illegible] unnecessary Gold and silver and [illegible] tender notes at par therewith are a just [illegible] circulation A close connection of the [illegible] government with the business interests of [illegible] through the national banks tends to [illegible] and contraction, but in the change [illegible] uniformity of notes, security of the [illegible] and protection of capital invested [illegible] provided for Treasury notes issued in [illegible] bonds bearing a low rate of interest [illegible] widen the credit of the government [illegible] given in paper currency [illegible] should not be sold to speculators nor [illegible] railroads or other corporations but [illegible] as homesteads for actual settlers [illegible] debt should be held at home and the [illegible] brought to be of small denomination [illegible] the savings of the masses may be [illegible].

[illegible] investigation into the electoral fraud is [illegible] Fraud should be exposed [illegible] and the criminals punished but [illegible] any attack upon the presidential title [illegible] to our institutions and fruitless in its [illegible].

[illegible] party creates new offices and [illegible] perquisites to others and fills them [illegible] whose chief duty is to manage its [illegible] machinery Its administration of state [illegible] grows more expensive each year [illegible] been directed by Republican lobbyists [illegible] manipulate and control the [illegible] of the Republican party and its candidates [illegible] the direction of a junta whose decrees [illegible] as the irreversible mandates of absolute [illegible] power We denounce these [illegible] measures and these men as unworthy [illegible] of an honest and a free people [illegible] of every shade of political opinion [illegible] us in delivering the commonwealth [illegible] their baleful rule

He incidentally remarked [illegible] Grant would be the next [illegible] candidate for president.

[illegible] motives and general course of [illegible] of President Hayes have our [illegible] and though a difference as to [illegible] we rejoice in the belief that both [illegible] Republicans in congress are [illegible], but on the contra[illegible] excellent precept, In essentials [illegible], liberty, in all things [illegible].

[illegible] truth and shrinking [illegible], we yet condemn as unfair [illegible] revolutionary measure of the [illegible] of representatives to investigate [illegible] pertaining to the presidential [illegible] all efforts to reopen a [illegible] after it has once been [illegible], justly closed are detrimental [illegible] perilous to the peace of [illegible] the apprehension of all [illegible].

[illegible] we deplore the opposition of [illegible] to the efforts of the administration [illegible] rights and privileges to all [illegible], we do recognize the [illegible] of those in that section [illegible] for the union and perpetuity [illegible].

THE EASTERN QUESTION.

The Latest Russian Proposition

LONDON May 23—It is stated that Count Schouvaloff brings from the czar counter proposals couched in conciliatory terms proposing that all questions pertaining to European Turkey be submitted and treated by the proposed European congress and that all questions relating to Turkey in Asia be made the subject of a separate convention between England and Russia

War Preparations.

A St Petersburg correspondent says We are still far from certainty of peace though the general conviction and sentiment is in favor thereof and powerful military preparations are being pushed forward energetically even if war is avoided General Todleben's activity and his importunity about the fortresses must not therefore be regarded as indicating a failure of Count Schouvaloff's mission Meantime the preparations before Constantinople continue The Russians are gradually creeping toward the capital keeping the Turks constantly on the alert Fresh reinforcements are constantly going to Bulgaria and Roumelia Odessa is swarming with soldiers and shipping troops, guns and stores are going thence to Burgas on the Black Sea or by railway to Roumania and Bulgaria

The Turks are not idle They have brought troops across the Bosporus for Scutari until 130 battalions now man the northern lines Heavy siege guns have been moved from the Bosporus batteries into these lines, while batteries on the Asiatic side have been strengthened so as to form in conjunction with the fleet, a line of defense to which they might retire in case of need It is thought they are confident of being able to hold their position

An English Cruiser

The senate rejected John B Frothingham assistant appraiser of merchandise at New York

Postal Changes

Postmasters appointed F F Clary Sidney Nebraska

Another Indian War Impending

CHICAGO May 23 —The *Times* Washington special in the course of some remarks on the subject says the Indian bureau is greatly concerned about charges of fraud against that organization in awarding contracts The latest item is of news to stir up the bureau is a telegram received to day of the departure [illegible] affairs among the Ute Indians of Colorado They are on the verge of open revolt against the government They have complained of bad treatment for nearly eight months army officers have justified their complaints and clearly pointed out a practicable remedy Their reports until very recently, were utterly unheeded A short time ago a commission of civilians and an army officer were appointed to investigate matters There is no possible excuse for this delay of several months in inquiring into abuses which from present aspects may at any time result in an Indian war in Colorado and New Mexico The Utes are a powerful nation there being over 4 000 in Colorado and some 2,000 in New Mexico If they resolve on war it is admitted on all hands that the Indian bureau and that alone will be to blame

CONGRESSIONAL.

House.

WASHINGTON May [illegible]

Continuation of Wednesday's proceedings]

Mills said this was not a political question His constituents asked security against a people who spat on the American flag and defied the American authorities

Durham thought an army of 15 000 sufficient Louisville citizens last year put down the riots and had Pittsburg's citizens acted in the same way there would be no necessity for calling on the government

Southard favored reduction and read telegrams to show that last year's army was employed in running southern elections

Wright protested against the monstrous doctrine in the report of the secretary of war that it was a necessity to station the regular army near large cities to anticipate revolt and terrorism Pennsylvania could protect herself

Ellsworth asked why Pennsylvania had the army last year

Wright said the troops were sent against the will of the people and did more harm than good only exciting the people [Continuous laughter and jeers]

Cannon favored 25 000 men and said the people of Pennsylvania were not the exclusive owners of that state, and when the troops were sent last year to break the riots a universal thank you went up to the president from the people for a thousand miles west of Pennsylvania

Hanna warned the Democrats against the scorn and contempt they would incur by robbing Texas and the territories of adequate protection

House

WASHINGTON May 23.

Robertson rising to a personal explanction said charges had been made against citizens of East and West Feliciana which if true would compel him to retire in shame from his seat and had read Sherman's letter to the Potter committee

The speaker ruled it was not a personal question unless he could state that the letter reflected upon him

Robertson went on to speak, being frequently interrupted declaring Sherman's letter a vile calumny There was conspiracy in those parishes and he believed John Sherman was connected with it

House went into committee of the whole on the army appropriation bill

The pending amendment being to fix the strength at 25,000

Ellis said he had learned some 20 southern districts had been already marked for the tread of soldiers next election

Banks asked which ones

Ellis enumerated Mississippi three South Carolina two Louisiana two and he would name the rest hereafter He would not mention now whence the information came but when Banks did hear he would think an earthquake had broken around his ears

Cox of New York offered an amendment, reducing the army to 15 000 rejected. Also, Dibrell's amendment, making it 23,000

Throckmorton's amendment fixing the army at 25 000, was agreed to—115 to 107

Republicans voted solid in the affirmative and with them Cutler Patterson Williams of Michigan Robertson Wigginton and all the Texas members except Reagan

The Texas Pacific Railroad

Following are the remarks of Mr Lamar in the senate Wednesday on the Texas Pacific bill, received too late for yesterday's issue

Lamar said the whole amount of bonds would not exceed $3 000 0 0 and the amount of interest to be guaranteed by the United States would not exceed $2 000,000 annually, and the government would have a mortgage on the entire road as security have all earnings and all dues for transportation of mails troops, etc. The amount asked for this invaluable road was not half that annually appropriated for rivers and harbors It was not as much as the government before the war paid for mail transportation along the Pacific coast, and that was at a time when we had but $1,000 000 people and the postal demands of the country were not what they are now It was not a fair statement of this case to any the passage of this bill committed the government to a great debt. Take the appropriation for the army for the next five years. Were they regarded now as debt? They brought no remuneration but in a case of a railroad the government became a creditor of the world The people of the south had already invested millions of dollars in the route and built 445 miles, but they were unable to build more The legislature of every state in the south had passed resolutions favoring government aid to the road He spoke of the labor troubles in the country and said what was needed was the inauguration of new enterprises to employ labor In conclusion he appealed to senators from New England especially to support the measure as a work of national importance in the interest of the whole American people

OREGON

Carpenters painters and builders are very busy at Salem all having all the work they can do

The question of a railroad is being agitated from Brownsville to Peoria via Halsey to connect with the Yaquina bay road

A preliminary survey is to be made between Brownsville and Albany for the new railroad This begins to look like business

The late frosts have injured the fruit crops in [illegible] tions of Linn county Farmers generally are done seeding The prospect a for good grain crops were never better in Linn

We have received a copy of the proceedings of the fifth annual reunion of the Oregon Pioneer Association which took place at Salem last year It is a very valuable pamphlet for pioneers and every one should obtain a copy Besides the addresses and other matters it contains a full list of the names of members of the association

THE RESTRICTIONS UPON THE N P R R COMPANY

TO THE EDITOR OF THE OREGONIAN

Two [illegible] the Directors and the world of another who was at their meeting April [illegible] the declaration that they [illegible] build the road [illegible] the provisions of the bill which passed the senate April [illegible] It has been [illegible] the road.

But this hope [illegible] The bill [illegible] reached in the house and the proper house bill if reached [illegible] by this senate bill But the point of chief trouble

that for four months the original senate bill was held in the hands of the railroad committee in order to force restrictions which the company could not accept Mr Mitchell said in the discussion of this bill in the senate April 22d And I [illegible] during the past four months [illegible] and for terms that would [illegible] please compel the Northern Pacific Railroad Company to concede to this proposed legislation conditions which [illegible] of the representatives of the state of Oregon and the great Pacific Northwest I regarded as but just to that section of our common country and which conditions I did not then and do not now regard as materially embarrassing to that company, etc. Mr M assumes with obvious propriety to represent in this question the state of Oregon the great Pacific northwest and that section of our common country He was thus [illegible] by his peers in the senate to the argument upon that high and comprehensive trust His just and eloquent plea upon this great life artery of the continent was calculated to the further confidence in his zeal and his purpose to secure the early completion of the road

The progress of the discussion shows the senators were ready to aid the enterprise

RESTRICTIONS

[illegible] as chairman of the railroad committee try to enforce upon the Northern Pacific Railroad company during [illegible] months On page 5 of his speeches April 22d and 23d he says

First— Such provisions as would compel an early lay the building [illegible] as would be necessary to open up the monopoly [illegible] Columbia river to free navigation

Mr M professed friendship for the N P R R as a national transcontinental road shorter and of better grades than others and needed for interior commerce needed to check the spirit of monopoly of the Union and Central Pacific Companies needed by the struggling people of the Pacific states and territories [illegible] for the commerce with Asia and [illegible] needed for the sure growth of the great northwest He sees and declares the necessity of this national road as [illegible] He is not in the [illegible] on any point his claims to represent its broad interests He knows the original purpose of the government in the survey of this route and its plan in the large grant of land to build it [illegible] the road He knows that [illegible] have been invested in it by ten thousand honest confiding men and women from twenty states [illegible] in this government subsidy He knows that a general bankruptcy for which they were not responsible has compelled these creditors to take the property of the unfinished road and become its stockholders He knows they are compelled to ask more time to complete the road and that this is all they ask He knows that they must do it to secure more funds He knows that the measure as stated by Mr Lamar—page 11— is identical alike by justice propriety and policy and that as Mr L says there is objection to loading this bill with other conditions than those which provide for a simple extension of relief

He knows that their claim for more time was equitable and that the [illegible] investments on the previous pledges of the government had given them vested rights in the whole original land grant for the road

He knows that no act of these creditors has vitiated these vested rights and that congress cannot justly and that probably it has no disposition to compel these people who have received little or no interest on their investment to make a new and harder bargain

He knows that they have never surrendered their franchises that no *quo warranto* writ has been issued against them and that by common law the privileges and immunities the estates and possessions of the corporation, when once vested in them will be forever vested, without any new conveyance to new successions

He knows that the pioneer settlers from the great lakes to the Pacific ocean along this northern route have also made large investments on the pledges of the national government in their original contract with the Northern Pacific Railroad Company

He knows that these investments of the hardy self sacrificing founders of new territories and states have an equity rights of the nature of contracts which on their part are in process of fulfillment and that they wait with intense anxiety along the whole line for the government to fulfill its part

He knows that the whole nation will gain largely by this investment of its lands which now have no value but which will at once sell for cash if the road is assured. He knows that government expenses along the route will diminish and government receipts will increase millions annually if the road is completed

He knows that many millions ($50 000 000 or $60 000 000) must be borrowed by the N P R R Company on their securities to proceed to finish their enterprise, and that capitalists in our own country and more so now in Europe are shy of American railroad bonds and that it will be hard to place new bonds of first class railroads even in any market of the world and that it will be impossible to place the bonds of any railroad that is cut down in its land franchises, and not allowed to sell its own lands—when earned—at market rates and whose lands are shaded by the indefinite claims of others

Mr Mitchell has a clear mind and a sharp sight of the main issue in a question

CASH TO COMPLETE THE ROAD THE FIRST GREAT NEED

He has been aware and he is now conscious as appears by his own argument that the chief object of the company is to get funds to build the road For this they ask an extension of time on the original contract. The bankers to whom they apply demand time to complete the enterprise and put it in condition to pay interest before they will open their vaults and issue cash on the bonds

LOSSES BY DELAY

Mr Mitchell knows that the pioneers in Dakota Montana, Idaho Washington and Oregon suffer great inconvenience and loss by every month's delay of the road, and that its completion will add from one hundred to three hundred per cent to the cash value of every acre of land in these states The Union and Central Pacific railroads have as per statistics added from one to four hundred per cent to the value of lands in the states traversed by them The sales of the U P R R land grant to December 31 1873 were 1 133 94 91 100 acres for $5 336 014 0, at the average price of $4 47 per acre An equal value surely was given to the same number of acres on the even section retained by the government The average price per acre of lands granted to and sold by the C P R R Co was $4 08 to January 18 5 Many of these lands had no cash value before the road was built

LOSS BY RESTRICTING THE N P R R

Oregon Washington, Idaho, Montana and Dakota contain 546 71 square miles which amount to 349 113 440 acres Suppose they are worth one dollar per acre now the N P R R and its tributaries which would traverse and tap them in all directions would add one dollar to every acre, or three hundred and fifty millions to the whole

The average value added by the other transcontinental line is four times as much which in this case would amount to fourteen hundred millions No one doubts that the N P R R would add this sum to the property if not to the land of these states within five years after its completion

PROOF

The assessed value of property in California alone rose from $180 000 000 in 1861 when the C P R R was begun to $2 4 9 1 0 in 1869 when the overland railroad was done The assessed value in 1874-5 five years later was $611 495,197 a gain of $3 4 012 48 or about 150 per cent in five years or 31 3 0 per cent per year

If one state gained in assessed property value three hundred and seventy four millions of dollars in five years after the completion of the overland road and fifty seven millions in the previous five years while waiting for its completion—$431 000 000 in ten years—it is fair to assume that the five northern states if traversed by the N P R R which contain three times the area of California, will gain three times that sum of assessed property value which will amount to twelve hundred and ninety three millions of dollars This sum of assessed valuation falls short of the previously estimated for property value of only one hundred millions We know that assessments fall below real values more than [illegible] fourteen which is the rate [illegible] case

THE FUTURE [illegible] OF THESE FACTS

Senator Mitchell has reason to know all these facts as the watchful and sworn guardian of these great national interests and the [illegible] his own constituents [illegible] great northwest [illegible] the [illegible] of his other duties he has not had time to make the [illegible] calculations or even to read and note the published statements of them yet they are [illegible] anxious [illegible] whose eyes have been fixed upon him as their representative [illegible] place at the head of the senate railroad committee [illegible] read them again and again and weighed and measured them having confidence in their senator have invested their homes and their money on the assurances of this overland road

THE PEOPLE ONLY WANT WHAT IS JUST AND FAIR

As reasonable men the people along this whole route would far rather grant an extension of time to the company on the original franchise of contract as the bill for extension of time passed the [illegible] unconditionally [illegible] Senator Mitchell [illegible] This if the [illegible] than to lose this overland road [illegible] that bill [illegible] others prefer to buy their lands of the company at their market rates varying with the quality and the location rather than get those [illegible] mesteads and be deprived of this trans continental railroad They can afford to buy and pay for the lands with the road They cannot afford to take them and hold them as homesteads for nothing without the road In this case most of the whole region must remain pasture ground

THE ISSUE.

In the face of all these facts and the untold colossal interests of this vast section of our common country which he represents Senator Mitchell as he says tried for four months in his place at the head of the railroad committee "to compel the N P R R Company to build so much of their road as would be necessary to open up the monopoly to and Columbia river to free navigation

In other words they must agree to borrow $400 000 or perhaps $500 000 as engineers estimate [illegible] mortgaging their completed road in order to build [illegible] miles of portage road to compete with a local yet rich portage transportation Co In other words they must lose the entire grant for the overland road unless they will fight what he styles a local monopoly Mr Mitchell admits page 6 that there are obstructions to navigation at these two portages which cannot be overcome except by the construction of a canal and locks, and that the general government has commenced these at the Cascades though a work of this character will require considerable time He knows that the O S N Co can afford to take freight across their portages free or so low as to break an opposition railroad portage company that has no continuous R R line from tide water to the interior He may know that the company cannot borrow money on this end along the Columbia river until their railroad connects this river with the Missouri Yet he insists on forcing the N P R R into a quarrel with a rich corporation

They must fight with borrowed money and run the risk of losing both interest and principal They must do it while dependent on that hostile company to do the freighting of the materials for their own main line eastward from the Columbia river Senator Mitchell as he confesses sought to force local issue from December to April upon the N P R R Co which wasted time and made capitalists more shy of the investment in their bonds and so far defeated this great national overland road He knew that if they could not afford to borrow money to build and run those opposition portage railroads no other company could do it and that the only possible way for the free navigation of the Columbia was by canal and locks

SECTION [illegible]

By constraint he admits that after April 1st he yielded his restriction of uniting the Salt Lake branch with the N P R R yet insisted on completing the two roads as a common road Sections 8 and 9 with their numerous provisos darken the prospects still more in the way of securing funds to complete the enterprise

THE ESSENTIAL THINGS TO THE N P R R

A fixed purpose to have this road built demanded that the bill be as Senator Lamar said (page 11) without other conditions than those which provide for a simple extension of relief This was Senator Morrill's view page 4 He thought the loss of eleven million acres a burden upon the road and the combination of roads another burden Success required that every provision of the bill be made after its review and acceptance by vote of the directors Success required the report early in the session

Defeat of the enterprise is the logical result of months of delay of lack of harmony with the board of directors of new restrictions upon the grant and fruitless local hardships upon its construction These have tripped it and probably switched it off the track entailing a deep disappointment and loss upon multitudes and gain upon only a few

Senator Mitchell had the courtesy to send me a copy of his speech's April 22 and 23 upon this senate bill and I have felt at liberty to note what have seemed to me the fatal restrictions upon the enterprise Sharing the pain of this defeat with large numbers of the pioneers of Oregon and Washington who have waited long in hope of this overland road I submit these views with the more cheerful ones of past months to the public

FRIDAY MORNING MAY 24 1878

INDEPENDENT VOTING

No independent state ticket is out this year yet it is indicated by advices from nearly all parts of the state that there is more general prevalence of independent spirit and purpose than was witnessed four years ago when the independent party had an organized existence and presented a full state ticket and in many cases county tickets likewise A letter to the Salem *Record* from Wheatland Yamhill county states the present situation thus If we are not mistaken a most radical change is rapidly taking place in the minds of the people of this state respecting party loyalty Voters cannot now be counted as heretofore before elections, by simply ascertaining which party holds a majority of subjects Men will no longer vote for Republicanism or Democracy but for men It is not a question of party fealty but one of honesty and capability This is a most cheering outlook and bespeaks a long needed change in every office in the state There are similar advices from all quarters and every observing person easily perceives the active presence of a sentiment of independence pervading the community about him

THE OREGONIAN has urged the need of change in the administration of state affairs not for partisan reasons, but because it has seemed necessary that better and more economical methods be introduced in the state government The loose management and extravagance of the last ten years much of which has been due to excess of partisanship under which men have covered advancement of their own designs are at length well understood and we shall be mistaken if the people do not vote for their correction It is as well to say plainly that the Democratic party has been dominated by this sinister influence Great numbers of its own members acknowledge it On the other hand there is an effort which has been urged in various localities with more or less success, to secure control of the legislative nominations in the interest of an active faction who are operating for themselves in the name of the Republican party This is resented with an independence similar to that in the Democratic party which protests against the manner in which state affairs have been conducted and against the rule of those who have managed them Two main objects are sought The state government must be conducted as before the era of extravagance, within constitutional limits and a legislature must be chosen which will both enforce this and send a senator to Washington who will aid, not obstruct, the interests of the state

These are the main objects now before the minds of the people of Oregon Party names are nothing in the absence of party issues The regulation tune, which is still feebly essayed by organs whose starveling support is derived from the grudged or enforced contributions of politicians and officials, falls vainly on the ear of the unheeding voter People are going to vote for purposes and objects Party names will not control them further than they find those names in the line of their intentions and desires.

STRONGLY PRESENTED

We cannot too highly commend the article by Dr Atkinson in review of the railroad question. It is a painstaking examination of a subject which no sophistry, looking to political ends, should be allowed to obscure Here is a clear and impartial discussion, presented without a touch of political or partisan interest. The restrictions upon the Northern Pacific Company are examined strictly with a view to their bearing and effect upon the enterprise. The person who reads this article carefully through will have a clear comprehension of the consequences of the onerous provisions with which Mr Mitchell insisted on loading the bill Instead of affording real aid to the company and helping forward an undertaking whose consummation the country desires, the conditions which he seeks to enforce cripple the enterprise by rendering the franchise of little worth for the object for which it is nominally granted Why this is so is explained in a most satisfactory manner by the article to which we refer It is an article which we trust will be generally read It contains numerous suggestions and arguments not heretofore brought forward This thorough examination of the subject will serve to clear away all remaining misapprehensions in regard to the effect of the act on that has been taken. We should have had a bill to aid the Northern Pacific railroad and to make its speedy construction a certainty What we have, after very long delay, is a bill which places fatal restrictions upon the enterprise This discussion of the subject is a most convincing one, and the broad and impartial manner in which it is presented gives it a place above mere altercation and controversy over things which may be only differences of opinion. One who prepares an article of this kind performs a public service In the present case it is a service which will meet with general acknowledgment.

TWO BAD LAWS

There are two bad laws on the Oregon statute books that should be repealed at the earliest opportunity, or at least one should be repealed and the other modified The first is the law which provides that state lands can be sold only to those who have "not voluntarily borne arms against the United States nor aided or encouraged the rebellion. The statute, printed on page 631 of the Oregon Code, was well enough when it was enacted, because the object was, then, to combine all the influence which the country could possibly command in support of the national cause, and to put all who were opposing it under as many disabilities as possible. But it is now obsolete, and for obvious reasons should be repealed

The second is that the state of Oregon is affected by the statute of limitations in the same manner as private persons. This will appear by reference to the first chapter of the code of civil procedure The state has large bodies of valuable land scattered in every direction and in many remote quarters It is unlikely that any person is watching settlers everywhere to protect the state against the operation of the statute It would be quite an easy thing for unscrupulous men to enclose state lands adjoining private possessions in the boundless solitudes of Oregon and acquire title against the state by lapse of time This law ought to be modified so that at least it would not apply to the public lands of this state

In California they are about to elect delegates to a constitutional convention and like many people of Oregon who, before they vote for members of the legislature want to know whether their wishes are to be respected the California voter insists on knowing what the candidates are going to do with the constitution in case they are elected Of candidates generally for seats in the convention the Sacramento *Bee* says We want to know what their interests are allied to before they enter that body The people have interests also and there will be no more wickedness in allowing the people's interests to enter that body than in permitting the interests of these political saints to take their place there

Henri Cernuschi a noted writer on monetary science has recently published a pamphlet on the silver bill The result of it he foreshows in this statement The United States will end even if they keep to limited coinage by having an abundant silver circulation Silver will drive away gold and *de facto* they will be silver mono metallists In short Europe will no longer coin anything but gold the United States and Asia will have only silver money He does not think the international congress on this question which has been asked by the United States will result in anything, because the leading countries of Europe will not abandon their financial system for that which our government has proposed

During the latter part of April a fearful storm raged along the Big Horn and upper Yellowstone in Montana It caught a large party of Crows who were out for their spring hunt The storm continued five days and nights with incredible fury All the lodges of the hunting party were buried in the snow which fell to a depth of many feet and filled the ravines with enormous drifts Great numbers of horses perished It was with greatest difficulty that the hunting party which was a very large one escaped When they came to the Musselshell they found as they stated no river but a vast drift of snow across its whole bed No such storm the Indians say was ever witnessed in that quarter

Speaking of the National state convention of Pennsylvania the New York *Herald* says The growth of the national party only proves that our regular political parties are losing their control over the public mind These effete organizations are thrashing over the old straw of spent issues It is no wonder that the people are ready to run after political mountebanks "

The Chicago *Times* says that the questionable attitude of the Tildenites is in the fact that they propose to investigate censure and condemn their own act appointing Mr Hayes to the presidency upon evidence of fraud not half so credible or trustworthy as evidences of the same fraud which they possessed when they performed that act

WASHINGTON TERRITORY

It is estimated that not more than 1 200 acres of oats are sown in all Walla Walla valley It is believed oats there will bear a high price

Wm Murphy tried at Walla Walla for killing a soldier some months ago, has been sent to the penitentiary for nineteen years Many think it should have been hanging

Fifty new settlers have located in the Yakama valley inside of three months and are grubbing out the sage brush and building dwellings and barns with a vim that is refreshing to contemplate

Work on the new post at the Coeur d'Alene lake is progressing rapidly The site has been selected, machinery for the sawmill has arrived, and a large quantity of logs cut A garden has been planted on the margin of the lake

FRIDAY MORNING MAY 24 1878

CITY.

GOOD FOR DIPTHERIA —Mrs R S. Dupee writing from Marysville California under date of May 1 th says I observe that many children and persons are dying in Baker City and other places in Oregon with diphtheria and also with catarrh and fever Now, I have had a number of cases of this in Marysville, and have been very successful and found the use of chlorate of potassa valuable remedy Take for instance six grains of chloride of potassa and about one ounce of water and sniff [illegible] the nostrils three or four times a day Frequently swallow pepper [illegible], apply weak mustard draughts on chest and magnetic baths twice daily over whole body manipulate [illegible] best freely often Now this is a very simple remedy but very efficacious.

SALMON SHIPMENTS The *Commercial Report* says From the commencement of the present season the exports to San Francisco aggregate 12 869 cases against 34 822 cases for the like time last year This gives a decrease for this season of 21 943 cases over the like time last season Our advices from down the river are of a necessarily unsatisfactory nature, thereby making it next to an impossibility to give the true run but there can be no doubt that the slacking up in the run was not generally looked for and that the average catch to each boat is not near so large as it is claimed that it would be confirming the general impression of a very marked falling off in the number that will be canned when compared with last year

CATHOLIC CHURCH DEDICATED —The *Sentinel* says On last Sunday Rev Edward Herman, assisted by Rev B Orth dedicated the new church recently erected in Butte district Washington county The building was placed under the protection of St Mary Magdalene where a large concourse was present to witness the ceremonies Father Orth preached an eloquent sermon in English explaining the nature of the ceremonies and also the fundamental doctrines of Catholic faith As the Germans were present Father Herman delivered a brief instruction in German It is expected that Father Herman will be able to hold service in the new church once a month

GENERAL MELEE.—Last evening a general row occurred at a well known house of ill fame which attracted a large crowd Some pretty loud words were indulged in which finally culminated in blows During the row the police swooped down and gathered some of the principal combatants into the fold—Bridget Gallagher Thomas Hamilton and Mollie Watson These persons were escorted to the city jail but were released on depositing $20 each for their appearance. The matter will be investigated to day

INDEPENDENCE BALL —The committee whose appointment by Willamette Engine Co. No 1 we noticed some time ago, have completed arrangements for the grand ball to be given on the approaching Fourth of July From the various committees which are appointed as well as the reputation the members of the company have for carrying out to success what they undertake we have no doubt the contemplated ball will be a very elegant and largely patronized affair

A FINE WAGON —The Portland Transfer company have the finest looking wagon in the city probably which they use daily in conveying passengers and freight to and from the river landings The wagon is large and long, drawn by two horses and was manufactured at the Union carriage factory The vehicle is painted in bright colors, and is an attractive sight when passing along the streets.

CONCERT —A concert will be given at Odd Fellows Hall, East Portland, Saturday evening, the proceeds of which will be given to Father Verhaag, in order to enable him to pay for a bell for St Francis' church. A number of amateurs will be present, and some very interesting and profitable exercises will be rendered.

TAKEN TO ALBANY —Gadway the man who stole $600 from Mr Cushman of Linn county, and was arrested last Sunday at the Dalles by Sheriff Crossen arrived here Tuesday evening Sheriff Herren of Linn county, who was in the city took charge of the prisoner and both went to Albany Wednesday afternoon

JUMPING MATCH —To morrow afternoon between the hours of 2 and 3 o clock a jumping contest will come off at East Portland park. The contestants are John Wilton, of Victoria and a Mr Wesly Both are excellent jumpers and a lively contest may be anticipated The match is for a purse of $50.

FIREMEN'S BALL.—An invitation is acknowledged to attend a grand firemen's ball which is announced to come off at Gaines hall, Gervais, on Wednesday June 5th. The ball will be given under the auspices of the Gervais fire department A full string band has been engaged for the occasion

INSANE PATIENT —An insane patient, whose name we have not been able to obtain was brought down from Linn county a few days ago in charge of the sheriff and committed to the asylum

RATIFICATION

MASS MEETING OF THE CITIZENS OF PORTLAND AT [illegible] ENTHUSIASTIC GATHERING

One of the largest and most enthusiastic political meetings which has been held in Portland for a long time took place last evening at Oro Fino hall Posters were distributed about the city and announcements made in the daily press that a mass meeting composed of citizens of this county would be held at the above named place on Thursday evening the object of which meeting was to ratify the county and legislative ticket placed in the field by the convention held at the courthouse on Saturday the 18th inst About o'clock the band for the occasion commenced to play on the balcony in front of the hall Rockets and Roman candles soon began to shoot skyward at short intervals attracting a crowd to the vicinity A steady stream of humanity soon began to pour up the stairway and into the commodious and brilliantly illuminated hall until every available seat was occupied A number of torches were placed along the street in front of the hall which threw a bright glare and which also attracted the attention of those passing

In front of the hall a large banner was stretched on one side of which was painted in large letters the names of the candidates for the county office and legislature On the other side of the banner appeared in very large and attractive letters the words For United States senator one who is true to Oregon The banner is 40 feet in length by 12 feet in width and answers well the purpose for which it is designed

At half past eight Mr Chairman Democratic County Committee ascended the platform and was greeted by applause when he called the meeting to order and resumed his seat Calls being made for Col Kelly he appeared upon the platform and was introduced by the chairman He said we come together not entirely as Democrats or as Republicans but to ratify what the Democratic County Convention had done He would not address the meeting either as a Democrat or as a Republican but in ratification of what had been done in the anomalous condition of things At the presidential election there was some majority for the Republicans in this county Knowing this and knowing that a large number of honorable Republicans would not submit to be bound by the nominations of a ring these Republicans came and asked to co operate with us They were met in a fair spirit It was an unusual proceeding but it received the hearty co operation of nine tenths of the Democratic party A few did not indorse it and they were pitied by Republicans and encouraged in this by the supporters of the ring run in the interests of one man The Democrats met these men in a fair spirit and said if you will vote with us you shall have a voice in the choice of candidates The method chosen was the only chance for success The party would not lose anything by acting in a fair and generous manner The Republicans had gone into the Workingmen's organization and nominated certain of their nominees. The Democrats only followed their example They had nominated some of these men who were Republicans and they proposed to stand by them These men had been nominated by a Democratic convention and that was sufficient Individual opinion ought not to be set up in opposition to the convention The Democratic party was a glorious one and Democrats ought to stand by it He closed with an appeal to Democrats to stand by the ticket and predicted its election in June

Loud calls being made for

HON J B CONGLE

That gentleman appeared and was greeted with a storm of applause He said he did not appear for the purpose of making a speech He was known as a party man—had scarcely ever scratched his ticket but had voted straight but his party for the last two or three years had been run in the interest of two or three men tickets were set up and the people did not have any voice in selecting them He was in the legislature of 187 and voted for J H Mitchell If God would forgive him for that he would never be guilty of so mean an act again he was a free man and would act as a free man He had been a Democrat before the war he had gone off with Union men but the corruption of the party was driving him back yet he was not running as a Democrat but for the sole and only purpose of defeating John H. Mitchell He had been called names among others a blind bridle candidate I was true he had made bridles and he expected to make blind bridles to put on the Republican candidates that would blind them so they would never get elected He believed one half of the Republicans of Multnomah county would vote the Independent ticket He described the doings of the Republican convention saying the ticket was set up and it was known before hand what would be done Mitchell had done nothing of good for Oregon and ought to be beaten

W W PAGE

Was called for said he congratulated such warm hearted patriots as his old friend and former fellow Democrat J B Congle The Democrats had done right in accepting the aid of the Republicans Gen Howard would have done wrong had he refused the aid of the Indian scouts in the late Indian war The Union generals did right in accepting the assistance of the negroes in the late rebellion If a man s house was on fire he did not inquire whether the man who was assisting him to put out the fire was a Democrat a Republican or Greenbacker but gladly accepted their services So at this time, in the days of fraud and swindling and thefts all honest men ought to unite to turn back the tide of corruption that has ruled in the state and nation Mitchellism ought to be and should be destroyed in Multnomah county beyond the possibility of a resurrection He referred to and denounced the course of Senator Williams in regard to railroad matters He was very severe in his denunciation of Mitchell He said Kelly and others who had no interest here except to draw their salary were attempting to say who should be our legislator They were like the Hessians in the Revolutionary army—cared for nothing but their pay

R. S NICHOLAS ESQ.

was then introduced who said he appeared as a candidate for the legislature nominated by the Democratic convention He was a Democrat and honestly believed in their principles and if elected would vote for a Democrat for the United States senate He would not vote for any Republican but there were 25 000 men in Oregon better qualified to represent Oregon than Mitchell He was particularly severe in his denunciation of Mitchell reviewing his career He felt the disgrace to the state by being represented by such a man It made his cheeks burn with shame, And now political tricksters were trying to force this abortion upon the people for six years more The Democratic convention had been regularly chosen and had done what they deemed for the best and the party ought to be satisfied The people were in earnest in this matter and would carry the election The ring would use all means to carry their ticket In the language of Lord Nelson the hero of Trafalgar Every man was expected to do his duty.

He agreed to do all he could to suppress Chinese He proceeded in vigorous style to denounce the Chinese and their employment

SYDNEY DELL [illegible]

Made quite a lengthy speech He heartily supported the ticket There was no violation of Democratic principle to take these gentlemen by the hand and welcome them He would not lift the hand to stay them let them come and join in with us in restoring and supporting good government He was glad that they had concluded to come over and help the Democrats Those whose names appear on the county and legislative ticket were honest and true men and he had no hesitation whatever in supporting such men Mr Dell dwelt for some time on the financial question Also of the electoral fraud He spoke of the official course of Senator Mitchell while he has had the honor of representing this state He had not fairly represented Oregon but had showed himself to be controlled by a class of monopolists whose purpose was to plunder the people He also spoke on the railroad question showing the importance of through connection. All this cry about the O. S N Co being a grinding monopoly was demagoguery and bosh He hoped all voters would turn out on the 3d of June and help to turn these robbers and plunderers out of place and power

There was a resolution that had been passed requesting a repeal of the Sunday law and other noxious laws He was in favor of their repeal and denounced the prosecution of men for violation of the Sunday law He closed by predicting the success of the ticket by 800 majority

B. KILLIN ESQ,

Said that the great want of the people was a railroad and showed the benefits of a road He was not a politician used to think he was a Republican had carried a musket for three years but now he was in the position of the Indian who was wandering around and being asked if he was lost, said Injin no lost wigwam lost He paid a glowing tribute to the old abolition Republican party but said that the present Republican party had degenerated into a machine for the benefit of office holders and corporations He proceeded to show the evils of such a government His speech was able dignified and well received

BEN NORDEN

Was called and made a short and neat speech Said he was a candidate for the office of sheriff Spoke very highly of the others on the ticket Said if elected he would serve all alike—Democrat and Republican His remarks though very brief were well received, and as he left the rostrum cheer after cheer rose from the crowd.

MR A. ROBERTS,

In response to long and continued calls came forward He was greeted with great enthusiasm Without attempting to make a speech Mr Roberts excused himself as the hour was late and retired

The meeting then adjourned

HOME MANUFACTURES

[illegible]

In every very new country a large portion of the products of labor is sent abroad to pay for the luxuries and some of the necessities of life and this drain is in too many cases continued for years longer than should be Much has already been said of the short sightedness of the people of this state in respect to the way in which they have allowed the producers and manufacturers of other sections to reap all the advantages arising from whatever prosperity might be enjoyed here We bring our wagons and plows a distance of three thousand miles when they ought to be made in the state Hundreds of tons of woolen fabrics are imported every year made perhaps from the raw material sent out of the state the producer of the latter being the consumer of the former and paying the double freight etc So with many in fact so with a great majority of the articles we find in the market and use daily But

LOT HIBBARD & CO

Of this city some time ago undertook to correct this state of things in one branch of business and try keep a portion of the money in the state For this purpose they fitted up the large building at Front st for the manufacture and sale of boots and shoes The latest improvements in machinery were procured and ample provision made for running a force of 25 men The manufacture of a class of work suitable to this trade of the most substantial character and of the best material was at once begun and has been kept up ever since Their success has been gratifying and though hundreds of thousands of dollars yet are sent abroad for boots and shoes this drain upon the resources of Oregon would be stopped very soon if the advantages of such factories were fully appreciated by the people Their goods are all put together in the best possible manner and no material with a single flaw is allowed in any piece of work which goes out of the factory so that the verdict of those who have used their goods, is that they are first class. Their factory occupies the second floor of the building while on the first they have one of the largest, finest and most varied stocks of

A Remarkable Result.

It makes no difference how many Physicians or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Diseases It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections Consumption Hemorrhages Asthma Severe Colds settled on the Breast Pneumonia Whooping Cough, &c who have no personal knowledge of Boschee's German Syrup To such we would say that 50 000 dozen were sold last year without one complaint Consumptives try just one bottle Regular size 75 cts sold by all Druggists in America

The public has been misled by advertisements of bankrupt and clearance sales, etc., but the public is now convinced that Kohn's Clothing Palace is the only first class and reliable Clothing House in this State, where you can get your money's worth. My clothing is manufactured East, and is superior in make and quality. Fresh new goods always on hand.

NOTES FROM WASHINGTON CITY

WASHINGTON D C May 11 1878

TO THE EDITOR OF THE OREGONIAN

Now that the so called Northern Pacific extension bill has passed the senate it may be worth while to give a few unpublished items in regard to it

Senator Matthews in his speech urging its passage was induced to say that the bill as now before the senate was drawn with the full knowledge and consent of the N P company, and on asking him why he so stated he said he was so informed by a member of the committee (meaning Mitchell) when in point of fact the company had [illegible] consent to the provisions of the bill and that Mitchell well knew when he misrepresented the wishes of the company to Senator Matthews

The president of the company took the bill as it was because he thought this would be the best way to secure progress on the measure and get it before the houses for such future action as may be obtained

It is the intention to amend the bill in the house in a proper manner but there is at work here a very powerful element to defeat all action of the house on the bill and that is the combined effort of the Central Pacific and some of the influential friends of the Texas Pacific Tom Scott's friends—as the latter feel jealous of the non action by the senate on their bill There is a very powerful influence at work against the Texas Pacific in the presence of some French gentlemen here who are the agents of the late Memphis and El Paso road

In looking over the files of the papers from Oregon I find some correspondence and a telegram to the Republican State Committee sent by Mitchell I must in justice to Mr Williams, the representative from Oregon and to Senator Grover say that the statements therein contained are not borne out by the facts—in other words they are Mitchellisms and this is about as brief and comprehensive a term as I can well use

If a proper bill shall pass within eight and forty hours thereafter an engineer will be dispatched to the Pacific coast to commence operations and in less than sixty days thereafter work will be vigorously under way Should such be the result it will have been achieved in spite of the opposition of Mitchell who has put every possible obstacle in the way and who has delayed for months if he has not effectually killed the reinauguration of this great enterprise But for his hostility and the delay he has occasioned the company would have built an important section of road this year on the Pacific slope INDEPENDENT

MIXED THINGS IN JOSEPHINE.

WILDERVILLE May 18 1878

TO THE EDITOR OF THE OREGONIAN

A number of the bedrock Democrats of this county met here in mass convention to day and placed the following county ticket in the field viz Gede Caldwell for the legislature A H Carson county judge Hon W W Fidler clerk John Taylor sheriff T G Patterson assessor John Wells and Henry Smith commissioners John M Smith school superintendent and Wm. Chapman, coroner

To an impartial looker on the object of this Bedrock assemblage seems to be a desire to beat some three or four of the nominees of the regular Democratic convention which met some two weeks since and placed Charles Hughes and some two or three others who were tinctured with "greenbackism on its ticket Gede Caldwell John Taylor and H Smith, nominated by this convention, are also on the other Democratic ticket

There are now four full tickets before the people in this county and I observe a notice on the store door this evening which looks as if there was yet to be another one The call asks all who are opposed to one man power and the present corrupt political maneuvers of this county to assemble here in mass convention on Saturday May 25 1878 at 2 o clock P M to nominate a ticket of Thoroughbreds to be supported at the ensuing election

Joe Wilder of Wilderville also has a ticket in the field and thinks Wilderville for the county seat and the indications are that it will be the winning card [illegible] as it will receive the votes of many Republicans Regular Democrats Greenbackers Bedrocks and Thoroughbreds on account of its central location D

THURSDAY EVENING May 23 1878.

Gold in New York 100⅛

Legal tenders in Portland—buying 99½ selling par

Silver coin 2¼@3 per cent discount

The present condition of local finances is one which promises fairly for the balance of the season. Remittances from the interior though not unusually active have been of such volume that notwithstanding the large outward movement to liquidate bills for heavy stocks of goods the supply of money in general circulation has been kept up to rather more than the average volume and the growing demand from those engaged in or expecting to engage in the movement of wool salmon and wheat is readily supplied without any hardening tendency in rates

Domestic Produce.

The present week so far has been one of splendid weather and reports of the improved condition of growing crops are encouraging to the already well founded hopes of an abundant harvest. The wheat crop is coming along finely in nearly all sections from which we have any advices and while some reports indicate that the aggregate for export will be but little if any more than in 1876-7 the prevailing belief is that the excess over that season will be from 10@20 per cent greater. The markets for this cereal at present present but few facts for comment, there being locally but little doing and though there are orders on the market unfilled prices for milling have declined about 5 to 10 cents per cental. For export there are no immediate buyers. English markets at latest telegraphic advices were manifesting a downward tendency under heavy imports but the prevalence of damp cold weather in some of the wheat growing sections of the British Isles in some measure counteracted this influence. Flour is unchanged as far as judged by general transactions but there is evident a weaker tone to the market under lower prices for wheat and the near approach of the harvest, the desire on part of dealers being to get the old stock as nearly worked off as possible. Oats are not very abundant, but furnished sufficiently to supply the moderate prevailing demand buyers pay our quotations freely for good choice lots. Barley is quiet and dull with transactions of rare occurrence. Potatoes are in light receipt and in good demand at prices which depend much upon the wants of purchasers, as high as $1 80 per bushel having been paid during the week but this is rather above current rates which average about $1 50 at present. Provisions are in full supply, and holders find but little encouragement in their efforts to sell. 11 cents for good country side meats being regarded as a fair price, and other classes in proportion. Butter except choice dairy is a drug in the market and we hear of good average lots selling at 10@12½c ℔ ℔. Eggs have been in good demand for the local trade at 20c per dozen and though shippers decline to purchase at these figures, any lot that will bear any guaranty of freshness readily command full rates.

But little wool has come forward as yet though the shearing season is well along. Growers who have investigated the trade are not encouraged to make extra exertions to get their product upon the market. Buyers are rather lower in their bids than last week, the choicest commanding only 22½ cents and lower grades ranging down to 15 cents ℔ ℔

Boston Wool Market.

BOSTON, May 23.—Wool—Market in the same quiet state as last week. The demand from manufacturers is confined to immediate wants and holders are unable to obtain any advance. Round lots of fleeces cannot be sold except at low prices. New crop of California moves slowly and manufacturers are very indifferent about supplies. On all old wool now on hand, holders have to submit to great shrinkage in prices and even at the present low prices it is difficult for manufacturers to obtain cost of goods. California sells at 15@28 for fall and spring pulled wools, 28@42½c for superfine, and X mostly 35@40c

New York Freights and Markets.

NEW YORK, May 23 —There is very little doing in the freight market per clipper and there's no new features to note

Home Produce Market.

WHEAT—The same apathy in the market noticed last week continues, and without any prospect of more active business until better prices draw out the remaining surplus, or the new crop comes in. Good shipping is quotable nominally at $1 75 and milling about $1 85@1 90 per cental

FLOUR—Supplies are light as usual at this season and dealers not anxious to accumulate stocks. Prices are weaker at $6 per barrel for smaller lots of standard extras, and $5 50@5 75 for round lots. Good country brands sell at $5 25@5 50 and $4 50@4 75. The demand for shipment for points to the north are active

OATS—The mean price is between 40@45 cents per bushel, according to quality, with light receipts and no unusual demand

BARLEY—The receipts, which are quite light are all taken for local consumption at $1 40@1 50 per cwt. No shipments are being made.

MILL FEED—Supply fair, bran quotable at $20 per ton shorts $27 50 middlings $32 50@35

POTATOES—We remark a falling off in the receipts and a good demand, quotations being given at $1 50@1 60 per bushel, as per condition, quality and wants of buyers

HAY—Receipts continue quite adequate to the demand prices range from $10@11 per ton for baled timothy and $8 50@9 for loose do

ONIONS—In fair demand for the local trade, and for shipment, quotable at $2 per ℔ for best varieties.

BACON—The market is amply supplied for the home demand and prices are lower. We note some receipts of eastern sugar-cured hams, which can be sold as low as the Oregon product. Quotations are 10@11c for sides 12@13c for hams and 7½@8½c for shoulders

LARD—The supply is ample and the market quiet at 10@12½ cents ℔ ℔

DAIRY PRODUCTS—Butter solid 12½@15c ℔ ℔ brine 16@18c choice dairy 20@25c; cheese, quotable at 15@16c ℔ ℔. Market quiet dull

DR. PAUL M. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Acute Diseases,

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease in plain and comprehensive language. But where he has found them crushed and broken down by disease mentally and physically he has restored them to health and happiness for it is well understood that without health there can be no happiness.

DR. BRENAN has made a specialty in the treatment of the following diseases Catarrh Bronchitis and all diseases of the throat and chest, by an entirely new system only known to himself. Diseases of the Kidneys and Urinary Organs including Spermatorrhea, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success, not only on this Coast but throughout the whole United States. Diseases of the stomach bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of and never fails to give relief at once and permanently cures the case if he is applied to in time

THE DOCTOR HAS GIVEN SPECIAL LECTURES to ladies only for years and is perfectly familiar with all female complaints and understands their delicate and refined organization as well as the proper remedies which should be used to allay their suffering and restore them to perfect health

THE DOCTOR HAS THIS ADVANTAGE over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally and will forward the proper medicines, or instruments to any part of the country with full instructions and advice. Each letter requiring advice or list of questions must contain two postage stamps

Everything strictly confidential and honorable.

THE DOCTOR has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION.

Persons coming to Portland requiring medical treatment of the proper kind who desire to consult with me, will please beware of persons who may try to coax them away to other so called Doctors through pretended friendship for the patients. Look out for them they are knaves prompted by selfish motives and what they can make. Be sure and ask for DR PAUL M BRENAN, the *Medical Lecturer*, and read his sign on his door

The party drove to Hampton normal school at 10 o'clock and thence to the Soldiers' home, where wounded veterans were formed to receive him. New York Stock Market

NEW YORK May 24. There are no more 4½ per cent bonds for sale by the syndicate. Buoyancy and activity in stocks to day exceeded anything witnessed for some time past. One of the officers in conversation confirms the report that the Russian force is composed of three crews, each fully officered. He says there is no harm in now saying that they came to America to man three fast vessels purchased and converted into Russian cruisers. He thinks two have already been purchased and are now in Philadelphia. Such officers as have left the *Cimbria* have gone to these vessels. When asked if any had been sent on he answered sailors were taken directly in the *Cimbria* to the transfer. The officer conversed with the rank of lieutenant highly educated and evidently candid in his statements
